

Emergency aid for Ukrainian children and families

I STAND WITH UKRAINE

#StandWithUkraine

Dear Friends,

Hundreds of thousands of people are fleeing from the war, children's institutions are caring for frightened refugee children, ill-equipped rural towns are finding places for families to take shelter. They need our help to provide shelter, bedding, food and hygiene essentials. Our Care in Action team is directly involved as we have been working in Ukraine for over 20 years to help thousands of vulnerable children and families.

Besides material assistance, there are calls for our team and our large volunteer community to help children overcome their trauma. With years of experience in child development and support programmes in Ukraine we are well positioned to help those who are displaced and in desperate need. Our staff and psychotherapist are further training mentors and volunteers in how to help children through this terrible time.

Local networks, Social Services and Regional Councils are asking for our help and we are working with them to offer direct relief. Donations are tax deductible, we assure donors that every Euro will reach those affected by this war.

Please help us respond to this enormous crisis
